

Ring Sizing Guide

The quick and easy way to find your perfect ring size

Print this easy template to find the right size. Be sure to set your printer's scaling to "none" to get an accurate measurement.

Use an existing ring that properly fits the intended finger. Place the ring over the circles on the right. Match the inside edge of the ring to the circle nearest in size. This is your ring size.

Note: If the number falls between two sizes, order the larger size. It's always easier to have a ring sized down!
